A Great Cloud

I would say by the Spirit of God this morning that there hangeth a great cloud of blessing, even a great cloud of revival over this great city...

They shall come to this city of York.... And I will fill this place with my people, and I will fill it with My glory that there shall not be room enough to hold all whom I will send,...And I will raise up those about whom you have never heard. I will raise up those whose names are not on your honor rolls and on your social titles. I will raise them up, for they are praying and seeking My face, saith the Lord....And you shall stand together in unity. Thou shalt stand in oneness of heart. Thou shalt love one another, for I have a pure people, I have a good people. I have a people in Canada that has not been contaminated. ...

(I did not know when I gave this prophecy that York is the original name of Toronto.)
