A New Work

I am doing a new work in the midst of you and I have been stirring the pot in the political realm. The Lord says, that I've been stirring things up in the east, stirring things up in the west. The Spirit of the Lord says, I am raising up political mothers and fathers. I am raising up political leaders that will begin to hear the voice of God and begin to represent all that I desire to do. For the Lord would say I'm resurrecting the righteous heritage of the nation of Canada and the Lord says that the spirit of chaos and the spirit of confusion, this Rahab spirit has been trying to bring even a death into the land.

The spirit of Rahab has been trying to cut off my righteous purposes, even in recent days and the Lord says that there have been some things that seem like there were exposed that would begin to cut short all that I was purposing to do. The Lord says my promise to you Canada is that all these things shall all work together for your good and the Lord says where there has been some underground information of the terrorist cells, even in Toronto, even in Montreal, even in Winnipeg, the Spirit of the Lord says, I want you to know that I am beginning to uncover that which has been covered.

I'm going to reveal that which has been hidden so that the purposes of the enemy can not move forward and the Lord says even as this father of Canada has experienced blockages in the heart, the Lord says, even as a sign the nation of Canada has had blockages in the heart and the arteries of the heart. The Lord says I am raising up the apostles and the prophets in every province of Canada and I am blowing out the blockages. I am blowing out the hinderances, I am releasing a clear clarion sound of breakthrough in the land and I will have dominion from sea to sea over the nation of Canada, declares the Lord.
