## **A Tidal Wave**

I see a wave coming... It's a wave of the gifts of the Holy Spirit out and beyond anything anybody had had any mind of... But I see a tidal wave! Dear God I see the thing coming! Oh, I saw something right then I've never seen before! Oh! It looked like in the Spirit I just saw a map of the North American continent... The map got really clear there and it looked like the border between the United States and Canada. It looked like the Great Lakes exploded outward. And just, just blew out and became part of the flood. Glory to God! Windsor!

It just flowed all up and down the Canadian and U.S. border. Glory be to God forever more.... I think the thing is just phenomenal. It's a tidal wave beyond what I can put words around it. Praise God!
