Airborne Regiment

I will create an airborne regiment. The strategic move in Canada has been stopped but even through this I have been causing an enlargement to occur. What has been stifled will rise up. The atmosphere of this nation will now begin to clear out. I have a nation within my nation that will begin to rise. My people are rising to a new level of faith and faith is clearing out the airwaves in Canada.

God will rearrange the communication system in this nation. People will hear in a way they have not heard before. There will be a major upheaval in the military- this upheaval will make a way for God to enter. Canada's military will be filled with the Spirit of God.
