Break the Pacifist Spirit

For the Lord would say, my Beloved Canada, you are in the balance. Do not be found wanting. I say, says the Lord, wake up Canada before it is too late. Do not think that terrorism cannot come to your soil. Do not think that famine cannot come. For I would say, I desire to raise Canada up, to crown North America, to be a crown of glory. but I would say, If you remain passive, and you do not cry out to Me, not only will there be children killing children, but there is going to be a violent spirit that will arise in the land.

So the Lord says this to you, pray while there is time to change history. For the Lord says, I began to bring upon Pharaoh, plague after plague. But he hardened his heart. Do not think that I have not seen the hard heart of the Prime Minister of this land. I desire to shift it. I desire to change it. I desire to rise up as a man of war for Canada. You must break the pacifist spirit. You must say, "We will be the Joshua's. We will take this land."

The Lord says, be strong and full of courage. Fear not for I will cause you to rise up. I would say, I am going to cause Canada to be those who model how to show as a church, the manifold wisdom of God to the principalities and powers of the air. And then you will begin to go into nation after nation after nation. But I would say to you, if you have the pacifist spirit, if you do not learn how to drive out the enemies in your own land surely you will mourn.
