Canadian Geese

During worship, this is what I heard the Lord say:

Just as the Canadian geese fly and go south, I say to you that there is a soaring now from east to west over this land, I say there is a rising up in my people. And where my people have been friends of God and where my people have been children that have felt lost at many times and unprotected, I say this will be a season of soaring into new dimensions for you. And I say to you that by soaring high no longer will you be lost children and no longer will you be wounded children but you will become a triumphant people that has a voice that changes the world.

I say to you because of that, I am going to unlock my prophetic voice that has been held in my people throughout Canada. I'm going to remove the reproaches of past moves from you. I'm going to remove, that which needs to be removed, and your voice, prophetically is going to be released in a way that begins to break down what needs to be broken down.

I say to you, I am putting a breaker anointing in my people in Canada. They will begin to rise from this meeting and by the summer be released to flow across this nation again. There will be movements coming from the west, movements coming from the east and they will begin to co-mingle together and synergies. I say to you there will be five movements in this land, with one of those movements originating here [Red Deer] and now and I say from these movements, a supernatural grace interruption is coming into the atmosphere of Canada.
