## **Door Named Shift**

[Reference to Svend Robinson stepping down last year]

I'm now going to say to you that is but a microcosm of something greater that is about to occur and there is a shift, a great shift and there is a window door of opportunity and this does deal with because God is wanting the liberal decrees of the past to be reversed and there is a jealousy of God that's been aroused right now on this whole same sex marriage issue and it's obviously one where God has drawn a line and He's saying, "Enough is enough". Because He does not want this nation or the United States or others to go down the Amsterdam road (I'm getting out there a little bit). He does not want us to go down the Amsterdam road and may great redemption and revival come to Amsterdam, in the Name of Jesus. But God does not want us to go down this whole thing where moral boundaries are so, they're just erased and so there is a window of opportunity. There's going to be a great governmental shift going to happen in the next 18 months in the nation of Canada. Seize your moment. Pray this moment. Believe this moment.

The Bible says believe the prophets and you will succeed. I just tell you, believe for an 18 month window of opportunity and for a great shift. Now there's also some sifting that's going to be happening in the church scene and there's going to be some inroads that are actually going to happen concerning the apostolic, prophetic move. There is some new convergence.

There are some fresh holy alliances in a godly way that's happening behind the scenes and the Lord is going to honour the relational networking that has been happening of a behind-the-scenes prayer net getting set up across the provinces and the territories of Canada. The Lord's going to honour the work over these last many years, particularly the last decade and what's being done in private is somehow going to be known in the public and Ottawa is going to be a centre where there's going to be this whole centre. I don't know what name something is given but I'm going to give it the name that I feel-it is a Righteous House of Prayer. A Righteous House of Worship and Prayer is going to come to pass in Ottawa, Canada. It's going to have major significance. Prayer teams, prayer leaders, worship leaders, pastors, apostles and prophets (and I got to get back to the apostles and prophets thing) are going to be going into Ottawa together as teams and you're going to war together.

The tribes are going to war together for your nation. We've been divided. We've been divided, whether it's French or English.

We've been divided whether it's First Nations or others but the Lord is also going to be sending in, I believe it's already beginning, something with China and there's an influx that's going to be happening in this nation of Chinese and so welcome that into Vancouver -cause

there's going to be an Asian invasion in Vancouver and some of the fire that some of these Asians, a holy Godly fire is going to help change some of the spiritual, witchcraft atmosphere of Vancouver. So Vancouver and beyond welcome an Asian invasion I mean that in a real way, a holy fire of God. In fact, there's some leader in Vancouver, you are of an Asian background, and you have an apostolic call. God is going to be landing on that man again and He visited you about ten years ago. God's going to visit that man again and there will be like a fresh fire that's going to happen in Vancouver.

And so this goes from Toronto, this goes to Ottawa, this goes to Edmonton. Oh, there's a healing anointing that's going to come upon Edmonton, in the Name of Jesus. There's going to be praise, worship, celebration explosions that's going to happen in Calgary. There is just diversity of effects that's going to happen across many different places and then something that I don't really fully understand this, but there is some portion of the evangelical body of Christ is going to be more receptive of the apostles and prophets and there's some breakthrough of a significant leader in like it's almost going to come like a Nicodemus in the night and saying you know I've been watching guys and I actually believe this stuff. It's like a door is going to get opened and there's actually as well - I don't know if this is the same thing or not - but I see something right now and it's the word Brethren and there's going to be a new like the Mennonite community but there will be like a new charismatic revival amongst Brethren communities. So I just speak that forth right now in the Name of Jesus and whoever are watching just mix your faith and just continue to pray and seize the window of opportunity for such a time as this.

Dick Dewert: You said something about you're going to get back to the apostles and prophets.

Jim Goll: Part of that is that there is some door over here that Nicodemus, an evangelical leader, that the heart is going to get opened and then some of those understandings are going to go into a wider place where there's been resistance and it's been almost like even, oh, boy, Lord, help me here.

Some Pentecostal leaders in this nation are going to embrace new wineskin understandings and while they believe it all on paper, they're now going to be experiencing it. The God encounters to these dear leaders, to deal Pentecostal leaders, even the assemblies. I tell you, a fresh outpouring of the Spirit is right at your door. Go through the door and here's your key.

Empower the next generation. If you will bring in, see, raise up the next generation of apostles and prophets for the Pentecostal Assemblies.

I see a door opening there for you. Give yourself to training and imparting of the next generation and there's something also about youth gatherings and these youth gatherings are just radical worship times that in that God's going to use it as a lasso. He's going to get some people and they're going to be wide open. I call it wet cement and He's going to write on the cements of their hearts. He's going to write prophetic, apostolic DNA. Prophetic and apostolic

DNA is going to be getting written in them people's hearts and so don't take these worship and fasting prayer gatherings as just the latest fad or the new thing, see then that they are offered opportunities, that a plough is going in rocky soil and they're turning it up and then to be able to freshly receive new wineskin understandings, in Jesus' Name.

The Lord said to me, that where as the work of the harvest has seemed difficult, slow, and sporadic there was now going to be a joy and ease in the work. The winter rains have been preparing the soil. And even though the soil has seemed muddy and difficult to work for the labourers, what those rains have accomplished

is allowing the rocks which have been entrenched in the hard soil to be loosened and to work their way to the top. Those obstacles which use to break many plow blades and cause the plowing to go slowly are now going to be easily removed through prayer and deliverance.

Recently, while ministering in the capitol of Canada-Ottawa, I felt the Lord say the following; These are the days of many congregations in Canada going from glory to glory. Seven years ago the Lord began to pour out the new wine and the oil of the Holy Spirit in Toronto- a great Canadian city of commerce. In that powerful move God has given the church of Canada some new currency. Instead of trading in tradition and programs like in the past, many congregations have learned to give out the joy of the Spirit and the peace and love of the Father's Heart. In this move Canada has proven to be a well for the nations.

But a fresh move is going to be added to the one of seven years ago. Just as Ezekiel experienced two parts in his vision of the dry bones coming to life so there will be two significant aspects of what God has in store for Canada. The first part brought a shaking and rattling the seriously shook up the religious death grip over many congregations. As well it brought much need unity to the church. A unity, not made by man, but of the different joints and bones of the church of Canada coming together in the Spirit in a fresh way. Those bones that came together for the purpose of seeking God were given muscle and sinews and tendons. They received a fresh strength to stand in the Lord and overcome the warfare of the enemy. But now a second wind is coming. This wind will enable the newly formed body to jump, run, and even mount up in the purposes of God and soar in His power and grace. This fresh wind will come on those congregations that have moved towards unity and learned to prefer one another just as Christ Jesus came to serve, rather than to be served. This second wind will release apostolic authority to the church of Canada.

Just as the first phase of this move which began in financial city of Toronto gave the church a fresh currency of peace and joy, so this new move will be governmental. The first rains brought refreshment but were also prophetic. They spoke of the possibility of what could take place through out the nation. This second move, will be a joining of the apostolic to the prophetic. A governmental type of authority will come on many churches and leaders through out Canada. There will be fresh anointing of power and authority coming on many. The move of the last 7 years has prepared many for this increase of the Spirit. Just as many have fallen deeper in love with Jesus, so they will now receive this anointing and not be caught up in their own

ministries, but will be caught up in the ministry of the Holy Spirit. They will not represent their own empires, but rather Jesus and the Kingdom of God.

Indeed, Ottawa, the governmental city of Canada shall have a key role in this move. But it shall not be limited to Ottawa. Toronto and Vancouver, as well as other cities and towns, are going to be epicenters of this move. The church is built on the foundations of the prophets and the apostles and now, the foundation of the church of Canada is going to go deeper into its prophetic and apostolic foundations. This will result in the living House of God growing both up and out. It will grow closer in intimacy with God the Father, but it will also grow outwardly to take in more hurt and broken.

Know this, that God, in His sovereignty, has chosen the great nation of Canada to impact the world on even a deeper level. Just as Canada is rich in natural resources but has barely tapped into those resources so the church of Canada is rich in Christ, but has barely tapped into the resources that Christ Jesus has for her in His Spirit. But the Lord says to have hope and lift up your eyes. You are going to be warmed and strengthened in the fresh wind that is coming. You shall walk and not faint, run and not be weary, and even though the church institutions of man stumble badly, you shall mount up in the purposes of God.
