I Will Visit

Canada how can we forget the land above us? ... For the Lord saith unto thee, there shall come a new move over the land, and now I am calling you that you mightiest stand in the gap, and that thou mightiest indeed travail and make intercession, that the Spirit of God may yet one more time move in the cites, yea that the Lord would move one more time and visit that nation. Call them! Call them! Call them! For I say that there are still some godly saints in that nation....

And I will visit the peninsula of Niagara and I will pour out My Spirit on the Niagara Peninsula. And there shall come a flooding over from Detroit even to Windsor, saith the Lord your God. And I shall visit Windsor; it shall reach up to Chatham. It shall reach even London saith the Lord your God. So be diligent My children.....

I will visit the Indian people. I will visit the Eskimos. I will visit and I will pour out My Spirit upon them in the northern regions and they shall have My visitation upon them....
