Ice Castle is Melting

I feel a very strong uncton that there is a great move of God on the horizon - for two reasons:

Number One: I received a vision about 8 years ago. I saw the stronghold over Quebec. It was a massive ice castle. It was very daunting and impenetrable. Inside the ice were millions of diamonds. The Lord said the diamonds were the souls of the people of Quebec. He said they were cold to him now, but one day He would send fire and the ice would melt and the diamonds would fall. Of course we know there is an ice castle in the natural made every year in Quebec City for the winter carnival.

For about two years after that we had many diamonds appear at our meetings and God would continually remind me to believe for the souls of Quebec.

Then last summer I had a dream. In the dream I was on an outdoor hockey rink with Carey Price and the Montreal Canadiens. Carey's best friend and cousin is a good friend of ours. The dream had three parts. In the first part of the dream I noticed the ice started to melt. In the second part of the dream there were pools of water on the ice. In the third part of the dream the ice was completely melted and the players were off the ice. I told my friends later that there would be a strike in the NHL as a sign in the natural that the ice was melting and Quebec was about to have a harvest as the diamonds would be falling.

Reason Two: About 10 years ago, Shirley and I were driving in Quebec and the Lord told me that the Mafia built all the major roads in Quebec. I told Shirley that the Lord showed me the connection in the spirit between the ROMAN Catholic Church and the ITALIAN Mafia. It was not that they were necessarily connected in the natural, but in the spirit there was a definite connection.

He then showed me that when I would see Mafia leaders and mayors under investigation and being arrested in Quebec, it would be the beginning of a massive move of God in the Catholic Church.

Of course a few years ago all this came out in the news and in the last year there have been ongoing investigations and arrests as we speak.

I feel very strongly that it is Quebec's time right now. There is some kind of a first fruits harvest awaiting this province
