Low Places will be Made High

I was in the room when the Holy Spirit fell on David Ruis like that.

And God began to talk to us, about a move of the Spirit that would come. But when we were in our twenties he said that the greatest move that we would ever see would come up on the children behind us, the generation behind us. And twenty years after I had that prophetic word for John and Carol [Arnott] about Jesus throwing back his head and laughing, because Satan was falling like lightning from heaven and that the great danger of that day would be to focus on the manifestations and forget that names were begin written in the Lamb's Book of Life.

Twenty years, almost to the week I had another sign, my son broke his neck. The doctor said 95% chance he would never walk again. Then suddenly, the toes on his left foot began to wiggle, then the whole foot began to move, then the other one, and now he can run. Five weeks later he walked out of that hospital and has never used a wheelchair or walker or anything since. Driving a car now.

And the Lord said: that's the next generation. People say, "Can any good thing come out of there? Look at those countries, they're falling, they're bankrupt, they're immobilized -they're quadrigics as it were. Can any good thing come out of there?"

But I tell you, the greatest move of God, the Lord told me when i was twenty seven, would not be our generation, but would be the generation behind us. That they would do signs they would do wonders they would change nations, they will change society and society would not change them.

And there is a movement of reformation coming, and the power of God is going to hit the low places, justice movements are going to spring up all over the world, and make the low places high. Righteousness is going to move into corrupt governments- Brazil, Brazil get ready, Brazil, a wave of my holiness and a wave of my power, reformation power is coming to the nation of Brazil, and many other nations too. Because the low places will be made high, the high places will be made low before the generation who prepares the way for the coming of the Lord. Brazil, and many other nations too. Because the low places will be made high, the high places will be made low before the generation who prepares the way for the coming of the Lord.
