Winds of Favour

The thing that I've been seeing is this huge wind coming from the four corners, and it's the force of favour. It's a wind of favour. It's blowing into the prayer rooms of the land. It's blowing into Quebec, it's blowing into every province. It's bringing answers to prayers. It's like Moses, when he found favour he said, "show me your ways". Esther found favour and she got victory. Ruth found favour and she got provision. And I feel this is the force of favour, that God is releasing right now that wind of favour and it's shifting things, it's shifting things.

And I've been seeing that it's been blowing over Quebec, it's like Quebec is being sandblasted, and it's coming back to its original purpose and God is restoring ancient wrongs, the things that have been stolen and taken the things that have been covered up by religious ways. God is blasting those things away, and there is such a force of favour coming upon people of prayer right now so that we are going to see amazing breakthroughs as we pray. We are going to see miracles, signs and wonders. We are going to see Church as it was intended to be as intercessors pray and this force of favour is released through them. It's going to breakthrough in so many places. We are just going to see amazing things in the next little while.
